The Imperative of Freedom - John Calhoun
Merrill 1990

Since the first version of this classic work was published in 1974, major events in which American journalism has played a decisive role have cast the reporter increasingly as the subject for public examination. The newsman has become news. Though there are more serious, responsible journalists today than at any time in America, the less serious, less responsible also have great exposure. The loss of credibility of the mass media is widely acknowledged, and is a considerable concern to serious journalists. For not only is American policy-making hampered by sensational journalism, but also weakened is the philosophical foundation of a free society; a society committed to maximize the freedom of well-informed choice for individual citizens in a period of massification. This book presents a philosophy of journalism that not only relates to a journalist's everyday activities, but also deals with a broad Weltanschauung for journalism which is built largely on the ideas coming out of the Age of Reason. Areas of philosophy are political philosophy and its relationship to journalism, epistemological concerns—primarily journalistic objectivity and truth-seeking, and journalistic ethics.

*The Right to Privacy* - Caroline Kennedy
Can the police strip-search a woman who has been arrested for a minor traffic violation? Can a magazine publish an embarrassing photo of you without your permission? Does your boss have the right to read your email? Can a company monitor its employees' off-the-job lifestyles—and fire those who drink, smoke, or live with a partner of the same sex? Although the word privacy does not appear in the Constitution, most of us believe that we have an inalienable right to be left alone. Yet in arenas that range from the battlefield of abortion to the information highway, privacy is under siege. In this eye-opening and sometimes hair-raising book, Alderman and Kennedy survey hundreds of recent cases in which ordinary citizens have come up against the intrusions of government, businesses, the news media, and their own neighbors. At once shocking and instructive, up-to-date and rich in historical perspective, The Right to Private is an invaluable guide to one of the most charged issues of our time. "Anyone hoping to understand the sometimes precarious state of privacy in modern America should start by reading this book."--Washington Post Book World "Skillfully weaves together unfamiliar, dramatic case histories...a book with impressive breadth."--Time

Klarifikasi Al-Quran Atas Berita Hoaks - Idnan A. Idris 2018-09-10
Hoaks adalah informasi yang tidak berdasarkan fakta atau data, melainkan tipuan dengan tujuan memperdaya masyarakat dengan model penyebaran yang masif. Penyebaran berita palsu atau hoaks, bagaimanapun bentuk, cara, dan alasannya tidaklah dapat dibenarkan. Fenomena sosial perilaku penyebaran berita hoaks banyak direkam dalam Al-Quran; bermula pada kisah Nabi Adam dan Hawa yang terperdaya oleh berita hoaks yang disampaikan iblis tentang ‘pohon keabadian’ hingga mengakibatkan terusirnya Nabi Adam dan Hawa dari surga. Juga pada kisah Fir’aun, sang penguasa yang membuat berita hoaks dan membentuk opini

*The Press in New Order Indonesia* - David T. Hill 2006-12

The Press in New Order Indonesia is the most comprehensive book available in English on the
print media during the Suharto presidency. Based on detailed and investigative research, it provides a succinct introduction to the political and economic forces shaping this dominant sector of the Indonesian media at a pivotal time in its development. The study documents the history of the press prior to the rise of President Suharto, surveys the changing New Order policies to the media, and analyses the various modes of control exercised through powerful government agencies and industry bodies. Throughout this critical historical period of political tension and economic transition, The Press in New Order Indonesia traces the development of huge media conglomerates which began to rival military muscle in shaping the media landscape of Indonesia. This study explains how the student press spilled off the campuses to play a unique political role. By contrast, a distinctly Islamic press achieved only very modest success. Focusing on Indonesian-language national daily newspapers, it also discusses news weeklies, periodicals and magazines, as well as publications in regional languages, English and Chinese. Brought back to life in Equinox Publishing's Classic Indonesia series, The Press in New Order Indonesia is required reading for students of Indonesian languages and cultures, Asian studies, Southeast Asian studies, media studies, journalism, and contemporary politics. David T. Hill is Professor of Southeast Asian Studies and Fellow of the Asia Research Centre, Murdoch University, Perth, Western Australia.

Media, Culture and Politics in Indonesia - Krishna Sen 2007

Media, Culture, and Politics in Indonesia is about the institutions and policies that determine what Indonesians write, read, watch, and hear. It covers the print media, broadcast radio and television, computers and the internet, videos, films and music. This book argues that the texts of the media can be understood in two broad ways: 1. as records of a "national" culture and political hegemony constructed by Suharto's New Order and 2. as contradictory, dissident, political and cultural aspirations that reflect the anxieties and preoccupations of Indonesian citizens. Media, Culture, and Politics, now brought back to life as a member of Equinox Publishing's Classic Indonesia series, explains what has escaped state control, not only by self-conscious resistance, but also because of the ownership patterns, technologies, and modes of consumption of media texts and institutions. The role of the media in the downfall of Suharto is examined and the legacy of his New Order is analyzed. This dynamic and innovative text is suitable for all students of Indonesian languages and culture, Asian studies, Southeast Asian studies, cultural studies, media studies, and contemporary politics. Krishna Sen is Professor of Asian Media and Dean of the Humanities Research Centre at Curtin University of Technology, Perth, Western Australia. David T. Hill is Professor of Southeast Asian Studies and Fellow of the Asia Research Centre, Murdoch University, Perth, Western Australia.

Six Great Ideas - Mortimer J. Adler 1997-12-01

This enlightening study is the result of group discussions at Dr. Adler's annual seminar in Aspen, Colorado, and conversations between Dr. Adler and Bill moyers filmed for public
television. Each summer, Mortimer J. Adler conducts a seminar at the Aspen Institute in Colorado. At the 1981 seminar, leaders from the worlds of business, literature, education, and the arts joined him in an in-depth consideration of the six great ideas that are the subject of this book: Truth, Goodness, and Beauty - the ideas we judge by; and Liberty, Equality and Justice - the ideas we act on. The group discussions and conversations between Dr. Adler and journalist Bill Moyers were filmed for broadcast on public television, and thousands of people followed their exploration of these important ideas. Discarding the out-worn and off-putting jargon of academia, Dr. Adler dispels the myth that philosophy is the exclusive province of the specialist. He argues that "philosophy is everybody's business," and that a better understanding of these fundamental concepts is essential if we are to cope with the political, moral, and social issues that confront us daily.

**Four Theories of the Press** - Fred Siebert 1963-10-01

Presented here are four major theories behind the functioning of the world's presses: (1) the Authoritarian theory, which developed in the late Renaissance and was based on the idea that truth is the product of a few wise men; (2) the Libertarian theory, which arose from the works of men like Milton, Locke, Mill, and Jefferson and avowed that the search for truth is one of man's natural rights; (3) the Social Responsibility theory of the modern day: equal radio and television time for political candidates, the obligations of the newspaper in a one-paper town, etc.; (4) the Soviet Communist theory, an expanded and more positive version of the old Authoritarian theory.

Make No Law - Anthony Lewis 1992-09-01
A crucial and compelling account of New York Times Co. v. Sullivan, the landmark Supreme Court case that redefined libel, from the Pulitzer Prize-winning legal journalist Anthony Lewis. The First Amendment puts it this way: "Congress shall make no law...abridging the freedom of speech, or of the press." Yet, in 1960, a city official in Montgomery, Alabama, sued The New York Times for libel—and was awarded $500,000 by a local jury—because the paper had published an ad critical of Montgomery's brutal response to civil rights protests. The centuries of legal precedent behind the Sullivan case and the U.S. Supreme Court's historic reversal of the original verdict are expertly chronicled in this gripping and wonderfully readable book by the Pulitzer Prize-winning legal journalist Anthony Lewis. It is our best account yet of a case that redefined what newspapers—and ordinary citizens—can print or say.
